Dates Received or Inspected : 4/16/2008 though 4/30/2008

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	4/25/2008	2/14/2008	SHANE HELM	St. Joseph	Buchanan	Burning / Scrap Tire Dump	Anonymous	SK	
Comments	Mr. Stephen Krabbe, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), referred the complaint to the department's Air Pollution Control Program (APCP) for a burn permit regulation.								
Comp. No.	KC0812028	Comp. Info	The complainant stated the reported party has between 150 to 200 waste tires on his property. He also has a large burn pile that he uses for all manner of trash and sometimes furniture. The complainant is concerned the reported party is burning tires as the smoke is very black on occasion.						
KCRO	4/16/2008	4/16/2008	LAFARGE	Independence	Jackson	Fugitive Dust	Anonymous	RAV	
Comments	Mr. Richard Vani, an inspector with the KCRO, arrived at the site at 3:10 p.m. and did not observe any fugitive dust violations or excess emissions from the crusher at the time of the inspection.								
Comp. No.	KC0812198	Comp. Info	The complainant stated the reported party's crusher located at Highway 291 and Kentucky Road is billowing out dust into the neighborhood.						
KCRO	4/16/2008	4/16/2008	LAFARGE QUARRY-SUGAR CREE	Independence	Jackson	Fugitive Dust	LaVone Spicer	RAV	
Comments	Mr. Vani did not observe any excess dust from the quarry or the crushing plant during the inspection.								
Comp. No.	KC0812199	Comp. Info	The complainant reported excessive dust from Lafarge's crusher. The complainant stated the dust was going off of the facility's property. The dust was awful on the day of the complaint and the day before.						
KCRO	5/2/2008	4/25/2008	BUILDEX	Dearborn	Platte	Fugitive Dust	Paula Webb	RAV	
Comments	Mr. Vani did not observe any excess dust emissions from the plant or haul roads at the time of the inspection. Mr. Barnett stated on April 24, 2008, there was a malfunction on the scrubber pump and once it was discovered the kiln was shut down. Mr. Barnett also stated that the process is wired so the kiln begins operating before the scrubber does and there is a short period of time when there is a potential for dust emissions. Mr. Barnett will try to rewire the system so the scrubber is operating any time the kiln is in operation.								
Comp. No.	KC0812257	Comp. Info	The complainant reported significant fugitive dust being emitted from the facility. The complainant stated the dust hasn't occurred in a while but believes the facility previously had multiple compliance issues.						
KCRO	5/2/2008	4/25/2008	BUILDEX DEARBORN	Dearborn	Platte	Fugitive Dust	Susan Brown	RAV	
Comments	Mr. Vani did not observe any excess dust emissions from the plant or haul roads at the time of the inspection. Mr. Barnett stated on April 24, 2008, there was a malfunction on the scrubber pump and once it was discovered the kiln was shut down. Mr. Barnett also stated that the process is wired so the kiln begins operating before the scrubber does and there is a short period of time when there is a potential for dust emissions. Mr. Barnett will try to rewire the system so the scrubber is operating any time the kiln is in operation.								
Comp. No.	KC0812258	Comp. Info	The complainant reported a rock crushing facility is emitting heavy amounts of fugitive dust intentionally. The complainant believes the facility waits to do this until after normal business hours in order to "get away with it." The complainant also believes previous complaints have been made against the facility for its operations practices (fugitive dust emissions). The complainant stated a large dust plume was occurring at the time of the call.

Dates Received or Inspected : 4/16/2008 though 4/30/2008

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	5/2/2007	4/25/2008	BUILDEX	Dearborn	Platte	Fugitive Dust	John McLaughlin	RAV	
Comments	Mr. Vani did not observe any excess dust emissions from the plant or haul roads at the time of the inspection. Mr. Barnett stated on April 24, 2008, there was a malfunction on the scrubber pump and once it was discovered the kiln was shut down. Mr. Barnett also stated that the process is wired so the kiln begins operating before the scrubber does and there is a short period of time when there is a potential for dust emissions. Mr. Barnett will try to rewire the system so the scrubber is operating any time the kiln is in operation.								
Comp. No.	KC0812259	Comp. Info	The complainant reported significant amounts of fugitive dust are being emitted from the rock crushing facility. The complainant stated he has complained about the facility multiple times over the years and believes the department has "looked the other way." The complainant plans to contact elected officials concerning the event.						
KCRO	5/9/2008	4/28/2008	MIKE ATCHESON/CEAH REALATO	Lees Summit	Jackson	Fugitive Dust	Randy Chapel	RAV	
Comments	Mr. Vani discussed the complaint with the reported party and explained the fugitive dust regulation. The reported party stated he would equip the sweeper with a water spray bar to control emissions and would not operate the sweeper if it created a dust problem.								
Comp. No.	KC0812260	Comp. Info	The complainant stated the developer for the subdivision is using a street sweeper to clean the roads. The sweeper is then emitting the dust through an exhaust vent. The filters appear to either be defective or nonexistent, as the dust exiting the machine is very dense. The dust is entering the complainant's house.						
KCRO		4/29/2008	MICK	Ridgely	Platte	Burning	Karla	RAV	
Comments									
Comp. No.	KC0812246	Comp. Info	The complainant stated the reported party is burning trash and placing tires on top to burn. The property may be vacant.						
KCRO	5/5/2008	4/29/2008	JOHN MICK	Ridgely	Platte	Burning	Karla	CW	kcr16
Comments	As a result of a April 23, 2008, complaint investigation, Ms. Crystal Wellman, an inspector with the KCRO, issued Mr. Pawling Notice of Violation (NOV) #KCR08593234, and Mr. Mick NOV #KCR16005760 for violating regulation 10 CSR 10-6.045 "Open Burning Requirements."								
Comp. No.	KC0812264	Comp. Info	The complainant stated the reported party is burning trash and placing tires on top to burn. The property may be vacant now.						
KCRO		4/30/2008	MUSSER'S CLEANING & RESTORA	St. Joseph	Buchanan	Fugitive Dust	Jay Playcomb		
Comments									
Comp. No.	KC0812245	Comp. Info	The complainant stated the reported party is sandblasting outside their shop again. The dust is leaving the property and covering the neighbors' properties. The complainant also stated he filed a complaint approximately a month and a half ago concerning the same activity. The complainant believes department staff warned the reported party that the particulate cannot leave their site.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 4/16/2008 though 4/30/2008

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	5/13/2008	4/30/2008	ADM PROCESSING PLANT	North Kansas City	Clay	Fugitive Dust / Odors	JC Sanders	CW	
Comments	Ms. Wellman did not notice any odor or dust crossing the ADM property boundary upon the investigation. Ms. Wellman contacted the complainant to discuss her findings.								
Comp. No.	KC0812262	Comp. Info	The complainant reported dust from a demolition site at the ADM plant in North Kansas City is crossing property boundaries and getting on the cars in the Duracomm parking lot north of ADM. Also, the complainant smelled a foul odor that he described as smelling like garbage.						
NERO	4/16/2008	4/16/2008	NORRIS AGGREGATE PRODUCTS	Huntsville	Randolph	Fugitive Dust	Lloyd Kribbs	DLK	
Comments	Mr. Don Kinkhorst, an inspector with the department's Northeast Regional Office (NERO), observed visible emissions beyond the premises of origin and issued Notice of Excess Emissions (NOEE) #NER2008041708463156 to NAPCO Quarry for violation of 10 CSR 10-6.170(1)(B), "Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin."								
Comp. No.	NE08658	Comp. Info	The complainant reported excessive dust from Norris Aggregate Quarries on Highway 3 near Huntsville. The dust was also bad the day before.						
NERO	4/17/2008	4/17/2008	MR. FURLONG	Mokane	Callaway	Burning	Anonymous	PMM	
Comments	Mr. Peter Muzio, an inspector with the NERO, arrived at the property located at Highway 95 and Highway C at approximately 3:00 p.m. and pulled into the business property. Approximately sixty feet from the nearest metal storage building, Mr. Muzio observed a six foot by six foot ash pile approximately four inches high. The reported party stated the seasonal furniture business he manages generates five to ten boxes a week and he burns them on the property. The reported party also stated he normally only burns one box at a time. The reported party mentioned that prior to any burning he contacts the City of Mokane Fire Department and they notify the county sheriff's office. The Mokane Fire Department refers to the reported party's type of fire a "controlled burn." The reported party told Mr. Muzio this method of notification prior to any burning on the property has been on-going for a number of years. The reported party also stated the local fire department has never had a problem with his occasional burning of boxes and they have never had to respond to the property to put out fires. The reported party stated he does not burn the wood waste in the burn pile and Mr. Muzio did not observe any unburned wood products in the ash pile on the property. Mr. Muzio concluded the reported party burned cardboard trade waste boxes on the property, which is in violation of the state open burning regulations. Mr. Muzio conduct an Environmental Assistance Visit (EAV) with the reported party and explained the state open burning requirements. Mr. Muzio provided the reported party with a technical bulletin providing facts on open burning regulations in Missouri.								
Comp. No.	NE08662	Comp. Info	The complainant reported large quantities of waste from imported furniture is being burned on a regular basis at property along Highway 94 near Mokane. The waste includes plastic, crates, extra furniture parts, etc. Another tractor trailer load of the furniture had just been delivered to the property. The reported party lives in an RV and assembles the furniture in a shed. The burning takes place behind the shed and a little to the right when facing the shed from the road. The complainant believes the ashes were washed away in the recent flooding but the burn area should still be visible.						

Monthly Air Pollution Control Program Detail Report

Dates Received or Inspected : 4/16/2008 though 4/30/2008

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
NERO	4/17/2008	4/17/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	Mr. Steve Boone, an inspector with the NERO, noted the complaint does not allege a violation of the Confined Animal Feeding Operation (CAFO) odor rule. For a violation of the Class 1A odor standard, odors must be experienced at a location beyond the property boundaries of the facility. Odors experienced while driving within PSF property boundaries are not a violation of this standard. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08671	Comp. Info	On April 16, 2008, the complainant filed the following two reports of odor, "April 15, 2008, Fred and Melody Torrey would like to file an odor complaint. As we were driving west this afternoon we encountered strong gassy odors coming off their factory farm. It made it difficult to catch our breath." and "April 16, 2008, Melody Torrey would like to file an odor complaint. As I drove by their factory farm this morning and this afternoon I encountered strong gassy odors that made it difficult to breath."						
NERO	4/21/2008	4/21/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08676	Comp. Info	On April 20, 2008, the complainant filed the following two reports of odors from PSF Whitetail, "April 17, 2007, Fred and Leta Torrey would like to file an odor complaint. We had a strong hog manure odor here today." and "April 20, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor has been here most of the day and is very strong this evening. I was unable to do anything outside after I got home."						
NERO	4/21/2008	4/21/2008	UNKNOWN	Green City	Sullivan	Odors	Rolf Christen	DLK	
Comments	Mr. Kinkhorst noted the weather conditions at the time of the complaint show the wind was out of the south southeast at 11.5 miles per hour with the relative humidity at 75%. The temperature was between 57 and 61 degrees Fahrenheit. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08687	Comp. Info	On April 21, 2008, at 8:31 a.m. the complainant filed the following report of odors via e-mail, "We are getting rather strong odors for the last hour now. Monday morning, 8:30 a.m., the winds are from the south, Valley View."						
NERO	4/28/2008	4/21/2008	GEORGE HARRINGTON	Atlanta	Macon	Burning	Anonymous	DLK	
Comments	Mr. Kinkhorst observed domestic/household waste resulting from two dwelling units open burned on a residential premises where it originated. The reported party is in accordance with the state open burning requirements. Mr. Kinkhorst did not observe any violation at the time of the investigation.								
Comp. No.	NE08691	Comp. Info	The complainant stated a year's accumulation of trash is being burned at the reported party's property. The trash is mostly trash bags. In a second fire, trash is being burned right next to a house trailer. The complainant is not sure what is being burned in the second fire.						

Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

Dates Received or Inspected : 4/16/2008 though 4/30/2008

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	4/23/2008	4/22/2008	AUDRAIN MEDICAL CENTER	Mexico	Audrain	Asbestos	Anonymous	DLK	
Comments	Mr. Kinkhorst found a section of the building locked and only accessed to be sure no pipes were dripping or other physical structural issues. In that section of the building a roof leak caused a minor amount of ceiling plaster to fall into a stairwell. An asbestos survey was conducted for the facility in 1995. The survey shows the plaster in the area of the stairwell tested negative for asbestos. The survey also shows the ceiling tiles throughout the building tested negative for asbestos. The survey does show that the floor tile in the abandoned section of the building contains less than one percent chrysotile asbestos. Materials containing less than one percent asbestos are not considered asbestos containing. The last asbestos removal had been done by Spray Services, Inc. of Washington, Missouri during June of 2007. The project was a floor tile removal of approximately 144 square feet. Two to three boxes of asbestos containing floor tile that had been sitting at the facility were also disposed of by Spray Services during the June 2007 asbestos project. Mr. Kinkhorst did not observe any evidence of asbestos removal work being conducted in violation of the air regulations.								
Comp. No.	NE08674	Comp. Info	The complainant stated the reported party has part of the building sectioned off for asbestos removal work. The complainant believes the maintenance workers have been told to go into the area and remove asbestos ceiling tiles from the building without wearing any protective equipment. The complainant also believes that several boxes of asbestos floor tiling has been placed throughout the facility for storage because the medical center does not want to pay for the disposal of the tiles. The asbestos project includes the scraping, sweeping and collecting of sprayed ceiling coating.						
NERO	4/22/2008	4/22/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	Mr. Boone noted the winds were blowing out of the east at the time of the report. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08682	Comp. Info	On April 21, 2008, the complainant filed the following report of odors from PSF Whitetail, "April 21, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. We had a strong hog manure smell this morning."						
NERO	4/23/2008	4/23/2008	JOEL HALEY/BOURNE SEED & SU	Columbia	Boone	Fugitive Dust	Terry Williams	PMM	
Comments	Mr. Muzio observed yellow dust on private vehicles, the complainant's residence and on the neighbors' rooftops. Mr. Muzio interview two neighbors and both reported the same information. Both neighbors believe the reported party, which is located 100 yards south of their residences (across the freeway) is the cause of the dust happening at approximately 2:00 to 3:00 a.m.. Mr. Haley, Bourn Feed and Supply owner, stated his business hours are 8:00 a.m. to 5:00 p.m., and no operations are conducted outside those hours. Mr. Muzio conducted a tour of the reported party's north-side property and did not observe any yellow dust. Mr. Muzio observed only tan-colored dust that is produced from the corn processing room, and that dust remained in the room. Mr. Muzio also interviewed three residents of Olympic Boulevard and Lamar Court, located north of the complainant's community. Each stated they have not observed any yellow dust nor have they had any problems with yellow dust. When Mr. Muzio returned to the reported party's community he observed flowering trees similar to the ones located south of the Lot 113 area (the complainant's residence). Mr. Muzio collected a sample that revealed similar yellow dust as that on the complainant's property. Mr. Muzio concluded the yellow dust detected is being emitted from the trees as a pollen, and not a fugitive particulate coming from the reported facility. Therefore, Mr. Muzio did not observe any violation of the state air regulations.								
Comp. No.	NE08679	Comp. Info	The complainant stated at 3:00 a.m., dust from the reported party's property was very bad. Yellow dust settled all over the complainant's and his neighbors' vehicles and houses. The complainant shut his windows because the dust was making him sneeze. The dust is difficult to remove. The complainant stated this type of dust occurs on an occasional basis.

Comments On April 30, 2008, Ms. Michelle Oglesby, an inspector with the department's Southeast Regional Office (SERO), attempted to locate the site. Ms. Oglesby discovered the only Roscoe Lane in Pulaski County was northwest of Buckhorn off of Richland Road. Ms. Oglesby traveled Roscoe Lane but did not observe any demolition waste or a home with a blue roof. Ms. Oglesby was unable to acquire more information due to the complainant being made anonymously.									
Comp. No.	SE08809	Comp. Info The complainant stated on Highway 7 in Richland there are two new construction sites and the reported party dumped over the home and another homeowner pushed back an old house. The complainant believes the reported party plans to burn it.

Dates Received or Inspected : 4/16/2008 though 4/30/2008

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SLRO	4/22/2008	4/21/2008	HANSENS TREE SERVICE	O'Fallon	St. Charles	Odors	Sue Zarvos	TWS	
Comments									
Comp. No.	SL08459	Comp. Info	The complainant reported via email noxious nauseating odors of sour rotting like vegetation odor from a tree mulching operation located to the east from the complainant's property.						
SLRO	4/22/2006	4/22/2008	UNKNOWN	Mapaville	Jefferson	Burning	Anonymous	KJA	
Comments Mr. Kevin Arnold, an inspector with the department's St. Louis Regional Office (SLRO) was unable to locate the area of the open burning.									
Comp. No.	SL08440	Comp. Info	The complainant reported a plume of dark smoke from an unlawful burn. The complainant did not know who is responsible nor what material may be burning. Regional office staff requested the complainant contact the Mapaville fire protection district to alert them of the burning in case the fire is a burning structure.						
SLRO	4/24/2008	4/24/2008	UNKNOWN	Foley	Lincoln	Burning / Odors	Anonymous	KJA	
Comments Mr. Arnold spoke with the complainant who stated the reported party burns household waste, which the complainant believes is unlawful. The burning occurs mostly after dark. The complainant has not observed dark colored smoke, which may indicate tires burning or the burning of otherwise prohibited materials Mr. Arnold discussed the state regulations on trash burning with the complainant and requested them to ask neighbors to contact the department if other home owners in the area considered the burning a nuisance. Then it may be addressed with at least a warning letter to the reported party.									
Comp. No.	SL08443	Comp. Info	The complainant stated the reported party is burning trash using a barrel. The malodor and smoke is an issue.						
SLRO	4/30/2008	4/25/2008	LINDA LAWSON & MATT LAWSON	St. Clair	Franklin	Burning	Anonymous	KJA	
Comments At the time of the investigation, Mr. Arnold did not observe any wire burning or any burning of off-site generated waste. Mr. Arnold left a copy of the facts on open burning and his business card on the reported party's front porch. Additional action will be taken if the complainant contacts the department again.									
Comp. No.	SL08477	Comp. Info	The complainant stated the reported party burns garbage and everything else. The complainant believes the reported party may be bringing trash in from off-site and possibly burning copper wire insulation. The burning is conducted behind the house. The flames reach higher than five feet tall and they have a four foot by six foot trailer full of trash. The complainant also believes the reported party is getting ready to burn after dark. Usually after six or nine p.m. with the burning going on all night long.

Dates Received or Inspected : 5/1/2008 though 5/15/2008

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
KCRO	5/12/2008	4/15/2008	JAMES WALLS	Odessa	Lafayette	Burning	Odessa Fire and Rescue	MRM	KCR1
Comments	Mr. Michael Miller, an inspector with the KCRO, issued NOV #KCR14025052 to the reported party for open burning an ice box and building materials.								
Comp. No.	KC0812338	Comp. Info	The Odessa Fire and Rescue observed the reported party open burning an ice box and building materials on April 15, 2008, at 10:36 a.m. The complainant faxed a report to the KCRO.						
KCRO	5/6/2008	4/16/2008	SMASEL QUARRY	Lincoln	Benton	Fugitive Dust	Aubrey Ray	RAV	
Comments	Mr. Vani noted at the time of the investigation the haul roads were watered and there were no excess emissions from the crushing plant. Required permit records were being maintained. The blasting occurs approximately twice per month. Mr. Vani advised Mr. Tarr, the manager of the quarry, that dust from the blasting is regulated and it is a violation for the dust to go beyond the facility's property boundaries.								
Comp. No.	KC0812284	Comp. Info	The complainant reported dust from blasting is going onto her property. The complainant also notices dust from the crushing plant and haul roads.						
KCRO	5/2/2008	4/25/2008	BUILDEX	Dearborn	Platte	Fugitive Dust	Paula Webb	RAV	
Comments	Mr. Vani did not observe any excess dust emissions from the plant or haul roads at the time of the inspection. Mr. Barnett stated on April 24, 2008, there was a malfunction on the scrubber pump and once it was discovered the kiln was shut down. Mr. Barnett also stated that the process is wired so the kiln begins operating before the scrubber does and there is a short period of time when there is a potential for dust emissions. Mr. Barnett will try to rewire the system so the scrubber is operating any time the kiln is in operation.								
Comp. No.	KC0812257	Comp. Info	The complainant reported significant fugitive dust being emitted from the facility. The complainant stated the dust hasn't occurred in a while but believes the facility previously had multiple compliance issues.						
KCRO	5/2/2008	4/25/2008	BUILDEX DEARBORN	Dearborn	Platte	Fugitive Dust	Susan Brown	RAV	
Comments	Mr. Vani did not observe any excess dust emissions from the plant or haul roads at the time of the inspection. Mr. Barnett stated on April 24, 2008, there was a malfunction on the scrubber pump and once it was discovered the kiln was shut down. Mr. Barnett also stated that the process is wired so the kiln begins operating before the scrubber does and there is a short period of time when there is a potential for dust emissions. Mr. Barnett will try to rewire the system so the scrubber is operating any time the kiln is in operation.								
Comp. No.	KC0812258	Comp. Info	The complainant reported a rock crushing facility is emitting heavy amounts of fugitive dust intentionally. The complainant believes the facility waits to do this until after normal business hours in order to "get away with it." The complainant also believes previous complaints have been made against the facility for its operations practices (fugitive dust emissions). The complainant stated a large dust plume was occurring at the time of the call.						
KCRO	5/9/2008	4/28/2008	MIKE ATCHESON/CEAH REALATO	Lees Summit	Jackson	Fugitive Dust	Randy Chapel	RAV	
Comments	Mr. Vani discussed the complaint with the reported party and explained the fugitive dust regulation. The reported party stated he would equip the sweeper with a water spray bar to control emissions and would not operate the sweeper if it created a dust problem.								
Comp. No.	KC0812260	Comp. Info	The complainant stated the developer for the subdivision is using a street sweeper to clean the roads. The sweeper is then emitting the dust through an exhaust vent. The filters appear to either be defective or nonexistent, as the dust exiting the machine is very dense. The dust is entering the complainant's house.

KCRO	5/5/2008	4/29/2008	JOHN MICK	Ridgely	Platte	Burning	Karla	CW	KCR1
Comments	As a result of a April 23, 2008, complaint investigation, Ms. Wellman issued Mr. Pawling Notice of Violation (NOV) #KCR08593234, and Mr. Mick NOV #KCR16005760 for violating regulation 10 CSR 10-6.045 "Open Burning Requirements."								
Comp. No.	KC0812264	Comp. Info	The complainant stated the reported party is burning trash and placing tires on top to burn. The property may be vacant now.						
KCRO	5/13/2008	4/30/2008	ADM PROCESSING PLANT	North Kansas City	Clay	Fugitive Dust / Odors	JC Sanders	CW	
Comments	Ms. Wellman did not notice any odor or dust crossing the ADM property boundary upon the investigation. Ms. Wellman contacted the complainant to discuss her findings.								
Comp. No.	KC0812262	Comp. Info	The complainant reported dust from a demolition site at the ADM plant in North Kansas City is crossing property boundaries and getting on the cars in the Duracomm parking lot north of ADM. Also, the complainant smelled a foul odor that he described as smelling like garbage.						
KCRO	5/7/2008	5/7/2008	LAKE VIKING HOMEOWNERS ASS	Gallatin	Daviess	Burning	Beth Salvag	RAV	
Comments	Mr. Vani discussed the complaint with Mr. Shad Mort, the homeowners association's manager. Mr. Mort stated he would move the trees from the common area to the Lake Vikings permitted burn site, and burn them there.								
Comp. No.	KC0812292	Comp. Info	The complainant stated the subdivision homeowners association is clearing land in the common area next to her lot and they plan on burning the trees on-site. The complainant's propane tank is only 70 feet from where the reported party plans to burn.						
KCRO		5/9/2008	SCHNEITTER FIREWORKS	Amazonia	Andrew	Burning	David Linn, ATF	JHH	
Comments									
Comp. No.	KC0812303	Comp. Info	The complainant responded to a fireworks warehouse site after an explosion late on Monday, May 5, 2008. The warehouse personnel had dug a hole and attempted to burn fireworks to destroy some damaged products. This caused an explosion that spread the fireworks over several acres of property and caused damage to homes and grass fires. The ATF representative is concerned with the environmental impact from unspent explosives on neighboring property and a nearby creek that is within sight of the Missouri River. The ATF is classifying the explosion as an accident. The fireworks company contacted Heritage Disposal for clean-up, but may attempt to dispose of the waste from the explosion themselves.						
KCRO	5/13/2008	5/12/2008	BUILDEX/WAYNE BARNETT	Dearborn	Platte	Fugitive Dust	Paula Webb	MRM	
Comments	Mr. Mill did not observe any excess opacity at the time of the inspection but a malfunction of a scrubber pump at the time of the complaint may have caused excess emissions. Follow-up is needed and planned for the next expected travel to St. Joseph.								
Comp. No.	KC0812294	Comp. Info	The complainant reported dust emissions from Head House at Buildex between 6:30 p.m. and 6:45 p.m. on Sunday, May 11, 2008.

KCRO	5/14/2008	5/13/2008	BUILDEX/WAYNE BARNETT	Dearborn	Platte	Fugitive Dust	Susan Brown	MRM	
Comments	Mr. Miller did not observe any opacity at the time of inspections, however, excess opacity had occurred at the time of a pump failure. Buildex is investigating automatic controls for starting-up the back-up pump. Regional office staff plan to follow-up when they inspect to travel to St. Joseph.								
Comp. No.	KC0812296	Comp. Info	The complainant reported dust emissions from Buildex. The complainant noticed the emissions on the evening of May 11, 2008.						
KCRO	5/20/2008	5/13/2008	ALL STATE ABATEMENT		Caldwell	Asbestos	Anonymous	RAV	
Comments	Mr. Vani noted the regional office did not have an inspector available to immediately respond to the complaint. Consequently, the project was completed by the time an inspector could do an on-site inspection. Mr. Vani discussed the complaint with Mr. Chuck Moore, the owner of the abatement company. They discussed the proper method to remove siding and the need to minimize breakage. Regional office staff will make a point of inspecting future All State Abatement projects to ensure asbestos is being removed properly.								
Comp. No.	KC0812333	Comp. Info	The complainant stated an asbestos contractor is removing asbestos siding from houses that are going to be demolished. The contractor is not carefully removing the siding and the siding is breaking up into small pieces.						
NERO	5/2/2008	4/25/2008	ANDY'S APPLIANCE SALES & SER	Kahoka	Clark	Burning	Brandi & Gerald Wilson	DLK	
Comments	Mr. Kinkhorst observed a small pile of vegetation and shingles in the yard immediately east of the reported party's property. Mr. Kinkhorst met with Ms. Lila Ferguson and conducted an EAV.								
Comp. No.	NE08694	Comp. Info	The complainant stated the reported party burns plastic parts from appliances.

Comp. No.	NE08735	Comp. Info	On May 8, 2008, the complainant filed the following seven reports of odors from PSF Whitetail for the time period from May 2nd through May 8th: "May 8, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor moved in this afternoon, then around 6:00 p.m. it moved in horrible. I was unable to work outside due to the odor. It made us sick. I was outside for about 15 minutes, by the time I came back in not only was I sick, but my clothes and hair smelled like hog manure. What a horrible life the state is forcing us to live with. I still cannot believe the state wants to move the odor machine when they have a location that will never detect any high levels and to move it to another area. Must have found another area that is also not likely to detect any odors. The state needs to do a better job of protecting the citizens from these factory farms instead of protecting them and letting the people suffer because of there inability to make these corporations control their odors when the technology is out there to reduce these odors." and "May 7, 2008, Fred and Leta Torrey would like to file an odor complaint. A strong hog manure odor moved in today." and "May 6, 2008, Fred and Leta Torrey would like to file an odor complaint. The odor was strong that morning." and "May 5, 2008, Melody Torrey would like to file an odor complaint. As I drove by the site this morning then again that evening I encountered strong gassy odors coming off their factory farm not only making it difficult to breathe, but it made me and my truck smell like hog manure." and "May 4, 2008, Fred and Leta Torrey would like to file an odor complaint. The odor was very strong this morning before moving out." and "May 2, 2008, Melody Torrey would like to file an odor complaint. As I drove by the site that morning I encountered strong gassy odors coming off their factory farm that made it difficult to breathe." and "May 2, 2008, Fred and Leta Torrey would like to file an odor complaint. We still had a strong hog manure odor with us." and "Melody Torrey would like to file an odor complaint. As I drove by the site I encountered strong gassy odors coming off their factory farm. Comments									
Comp. No.	NE08738	Comp. Info	On May 9, 2008 at 6:50 p.m., the complainant reported via voicemail a terrible odor at the intersection of Broadway and 2nd Street in Milan. It is the typical packing plant odor from the Milan packing plant.						
NERO		5/13/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments									
Comp. No.	NE08742	Comp. Info	On May 12, 2008, the complainant filed the following three reports of odors from PSF Whitetail, "May 9, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor has been horrible here. I was unable to do any work outside due to the odor." and "May 10, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor is still with us and I am still not able to work outside and enjoy our property. Not only did the state do a bogus health study on PSF, now they are doing a bogus air study up here on PSF. One thing about it, they will match each other on there conclusions. They found very little due to the fact that with both studies the machine was placed in the wrong area. Mostly up wind from the sites. The state not only refuses to do anything about this company, but they also try to conceal the truth about them and the health effects they are causing us." and "May 12, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor was terrible here this morning then moved in again this evening. We were forced yet again to go in our house to keep from getting sick due to the strong hog manure odor from their factory farm."						
NERO		5/13/2008	CTS CEMENT MANUFACTURING C	Mexico	Audrain	Burning	Anonymous	SMB	
Comments									
Comp. No.	NE08746	Comp. Info	At 4:55 p.m. on May 13, 2008, the complainant reported tires being burned in a pit at the CTS Cement Plant on Highway J north of Mexico. The complainant smelled the smoke and stated it smelled like tires burning. The smoke is black.

Dates Received or Inspected : 5/1/2008 though 5/15/2008

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	5/23/2008	5/14/2008	MR. TERRY SHAW	New Bloomfield	Callaway	Odors	Anonymous	DLK	
Comments	Mr. Kinkhorst arrived at the facility at approximately 11:30 a.m. and did not observe any odor. Mr. Kinkhorst met with the reported party and informed him of the complaint. Mr. Shaw stated he uses low hazardous air pollutant finishes and has not done any finish work for more than one month. Mr. Shaw also stated that he uses Elmer's wood glue and he has not glued any laminate counter tops recently or done any veneer work for some time.								
Comp. No.	NE08756	Comp. Info	Odors are coming from the Specialties in Wood cabinet shop in New Bloomfield. The cabinet shop is at the intersection of State Route J and AE (old) Highway 54 in New Bloomfield.						
NERO	5/15/2008	5/15/2008	UNKNOWN	Green City	Sullivan	Odors	Rolf Christen	DLK	
Comments	Mr. Kinkhorst noted the weather conditions at the time of complaint show the wind was out of the northeast at approximately three miles per hour, 54 degrees Fahrenheit, and 69 % humidity. All complaints are logged and reviewed for the development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
Comp. No.	NE08751	Comp. Info	On May 14, 2008, at 8:29 p.m., the complainant filed the following report of odor received via e-mail, "We are getting very strong odor here at our house. It is coming in through the closed windows. Winds are very light from the north northeast, Green Hills. Wednesday, 8:28 p.m."						
SERO	5/5/2008	4/9/2008	ROBERT CHURCHWELL	Poplar Bluff	Butler	Burning	Denny Lyons	DRL	
Comments	Mr. Dennis Lyons, an inspector with the SERO, noted the reported party burned some old ties in an effort to remove large tree stumps. The reported party stated he didn't know he could not burn the ties, but would stop.								
Comp. No.	SE08736	Comp. Info	The complainant stated the reported party was burning cross ties.						
SERO	5/2/2008	4/29/2008	RICHARD HICKMAN	Bonne Terre	St. Francois	Burning / Asbestos	Anonymous	AW	
Comments	Mr. Wampler noted the home had been torn down but did not observe any evidence of burning. The lot had already been leveled with only pieces of concrete left. Mr. Wampler was unable to contact the reported party.								
Comp. No.	SE08827	Comp. Info	The complainant stated the reported party is tearing down a house and burning the shingles.						
SERO		5/5/2008	DOE RUN MINE VIBURNUM	Viburnum	Iron	Particulate	Mike Savin		
Comments									
Comp. No.	SE08853	Comp. Info	The complainant stated the reported party has a mine on the east side of Viburnum and they have a large sand/mine refuse pile near the mine buildings. Strong winds blow the particulate matter and it covers County Road 1, which runs out of Viburnum. The road has auto and pedestrian traffic on it.

SWRO		5/13/2008	LAKE ASHPHALT CO AND OR MCG	Sunrise Beach	Camden	Fugitive Dust	Jeri Landon		
Comments									
Comp. No.	SW0812061	Comp. Info	The complainant reported a fugitive dust emission. The complainant lives on the road coming out from an asphalt plant and also a limestone quarry. These are separately owned businesses. She stated that both facilities contribute to the dust but only one, the limestone quarry, has a water truck with spray bars to cut back on the dust during dry weather. The complainant also stated she has not seen a water truck go up and down the road in two days. Normally the truck does patrol the road.						
SWRO		5/13/2008	ED WASHINGTON	Greenfield	Camden	Burning	Anonymous		
Comments									
Comp. No.	SW0812062	Comp. Info	The complainant stated the reported party is burning a pile of carpet, dock foam, tires, and other rubbish in an empty lot.

Comments									
Comp. No.	SW0812054	Comp. Info	The complainant stated the odor was very bad on Saturday, May 10, 2008. The complainant first noticed the odor at approximately 2:00 p.m. and it lasted for several hours (this was before the storms/tornado). On a scale from one to ten, the complainant rated the odor a 15.						
SWRO		5/14/2008	LAKE ASPHALT	Sunrise Beach	Camden	Odors / Particulate	Sherry Landen		
Comments									
Comp. No.	SW0812063	Comp. Info	The complainant reported strong diesel odors and gray particles floating through the air. The complainant stated the noise seems to be louder than normal as well. She believes the reported party began at 5:00 a.m. and the machine sounds different then it normally does. The complainant suspects something is wrong based on the amount of particles and the odor in the air.						
SWRO		5/14/2008	LAKE ASPHALT	Sunrise Beach	Camden	Odors	Barb Robinson		
Comments									
Comp. No.	SW0812064	Comp. Info	The complainant reported strong odors related to the asphalt plant. The complainant would like for department staff to inspect the facility at the time of the complaint to observe the strong smell. The complainant believes the plant worked late the night before and the odor was overwhelming the next morning. She did not observe any dust in the air, just a strong smell.
